A group of individuals with many years of experience that promise to bring a show of high energy entertainment. Each individual in the band has played with bands local and on the road in the past that has sharpened their skills. Each musician in this group has the passion to bring the show to every person in the audience no matter their age, we thank you for the chance to make you smile.

Starting with the heart of the band is Melanie Fowler. Melanie is an extremely energetic talented vocalist and guitar player that has a vocal range like no other. She will bring a wide arrangement of songs from the soft sounds of country to the over "The Edge" rock-n-roll tunes and make those goosebumps become mountains.

Our skilled and seasoned lead guitarist is Jeff "Slash" Parsons. Jeff has a way to bend strings that will bring you to your feet. With his over The Edge style he captures the guitar licks of his idols and has mastered his ax from being behind the strings for countless hours of jamming.

Garth "Gman" Perkey is the bassist and backing vocals that guarantees a rumble for your seat. Garth has a way of pulling the sound together to fill a room leaving no dead spots while bouncing around the stage with the 5 string around his neck.

Chris "Sticks" Fowler, drummer and backing vocals will bring the solid foundations and is the percussion master in many ways. Chris has been on the road sharing his talent over many states and now is settled on The Edge.

Rounding off our well-oiled machine is Bobby Dunn our sound engineer. Bobby has skills behind the scenes that most people will never see but his incredible ability to mix our sound will make you appreciate all of us together taking you on a trip over.... THE EDGE!
